Your Health, Our Mission...

Soft Cervical Collar For Child & Adults

Helps provide relief from
mild neck pain and stiffness

J-KARE

Your Health, Our Mission...

CODE : JK-CC01

INDICATION FOR USE:

Cervical vertebra and soft tissue neck traumas, accidental or abrupt movement traumas of head or neck, at postoperative stage.
Supports cervical vertebra in correct position
Provides warming effect and soft massage
Foam provides softness and comfort during usage
Velcro closure for easy and tight adjustment

DESCRIPTION:

- Neck brace restricts head movement to help in fast healing of injuries like herniated disc, spondylosis and other medical conditions of the vertebrae.
- Provides limited cervical motion control, and is recommended wherever a reminder against making quick and painful neck movements is required.
- Soft contoured foam to provide maximum comfort between chin and jaw.
- Especially convenient for wear while sleeping.
- Simply wrap collar around neck, and fasten velcro securely for a precise fit.

WASHING DIRECTIONS:

Wash cold water and soap by hand, rinse thoroughly and dry at room temperature without squeezing. Do not use in washing or drying machines.

WARNING:

In case of reddening and irritation, stop using and consult your doctor. Using during sleep is not recommended.

CODE : JK-TS01

Thumb Spica Splint

For Men & Women

Helps Relieve Pain Caused by
Weak, Injured or Arthritic Thumb

CODE : JK-TS01

INDICATIONS :

This thumb brace can help with arthritis and other chronic conditions, but is also well suited for sprains, fractures, or even soft tissue injuries to the thumb.

This thumb spica splint stabilizes the thumb while giving free range of movement to all the other digits, so your thumb injury won't hinder your daily activities.

DESCRIPTION:

The thumb spica splint is perfect for people who are experiencing thumb problems caused by CTS or De Quervain Syndrome which is caused by inflammation of tendons in the thumb.

Its purpose is to hold your thumb in a steady position, prompting it to heal on its own and avoid sudden movements which can aggravate any injury.

The metal splint is covered by a soft, breathable fabric, that is comfortable enough to sleep in, so you get 24 hour support and stability

WASHING DIRECTIONS:

Wash cold water and soap by hand, rinse thoroughly and dry at room temperature without squeezing. Do not use in washing or drying machines.

WARNING:

In case of reddening and irritation, stop using and consult your doctor. Using during sleep is not recommended.

Professional Neoprene Coco-up Wrist Splint

For Child & Adults

- ◆ WARMTH
- ◆ PROTECTION
- ◆ COMPRESSION

Comfortably and firmly holds the wrist in a neutral position to promote healing and minimize pain

J-KARE

Your Health, Our Mission...

CODE : JK-WS02

INDICATIONS :

The main indications for splinting are to temporarily immobilize a limb for pain and spasm, to decrease swelling, and to minimize further potential soft-tissue or neurovascular injuries associated with contusions, sprains, lacerations, fractures, dislocations, or painful joints due to inflammatory disorders.

DESCRIPTION:

The Wrist Splint is designed to provide support for wrist injuries (ligament instability, sprain or muscle strain), carpal tunnel syndrome, post-operative use, and post-removal of casting or splint. Dual removable stabilizers above and below the hand help control wrist movement while allowing full finger dexterity. Adjustable straps allow for a personalized fit while the contoured shape and cool, dry, breathable material ensures comfort.

WASHING DIRECTIONS:

Wash cold water and soap by hand, rinse thoroughly and dry at room temperature without squeezing. Do not use in washing or drying machines.

WARNING:

In case of reddening and irritation, stop using and consult your doctor. Using during sleep is not recommended.

Energizing Posture ALIGNMENT SUPPORT

Aligns Your Spine & Improves Posture
Great For Men & Women

CODE : JK-PS01

INDICATIONS :

Posture correction and round shoulder treatment of back problems such as poor posture, backaches, neck and shoulder pain, curvature of the spine (scoliosis), Osteoporosis, mild to moderate Kyphosis, slumped shoulders, indigestion and erratic bowel.

Clavicle Fracture and AC joint support Offload Neurological symptom from Brachial Plexus area support Thoracic Spine and CT Junction.

DESCRIPTION :

Posture Support relieve back pain caused by prolonged sitting and correcting back posture and preventing myopia.

It helps to perfectly align the body posture of neck, shoulder and Backbone in an efficient manner. Can easily be used by both men and women of all ages Avoid over-tightening which will cause excessive tension.

This comfortable posture brace is the most cost effective way to prevent slouching and long term pain that's associated with it. With straighter posture during all of your daily activities spinal pressure on your discs is relieved, reducing pain and in some cases inflammation due to bad posture.

WASHING DIRECTIONS:

Wash cold water and soap by hand, rinse thoroughly and dry at room temperature without squeezing. Do not use in washing or drying machines.

WARNING: In case of reddening and irritation, stop using and consult your doctor. Using during sleep is not recommended.

Hot & Cold Therapy Gel Pack

Hot Application:

- Relief Of Muscle Aches
- Back Pain
- Sinusitis
- Menstrual Cramps

Cold Application:

- Reducing Swelling
- Toothache
- Temporary Relief of Headache
- Reduction of Fever

Microwaveable & Reusable

CODE : JK-HC01

DISRUPTIONS :

1. These reusable ice packs may be used as cooling cold packs or soothing heat pads. Cold therapy or cryotherapy is a highly effective method for treating acute sports injuries, activity injuries to soft tissue. It is also recommended by orthopedic surgeons following post op surgery.
2. Our gel ice packs may also be used to apply heat therapy or thermotherapy for pain relief.
3. Heated gel ice packs can also be beneficial to those with arthritis and stiff muscles as well as for deep tissue injuries.
4. The correct application of ice packs for injuries can aid the healing process in a few ways.
5. The cold ice packs will constrict blood vessels, which reduces swelling and the blood flow around the injury.
6. Ice packs will help to numb the pain and prevent muscle spasms.
7. By lowering the temperature of the injured area the cellular processes are reduced which can help to minimize soft tissue damage.

WASHING DIRECTIONS:

Wash cold water and soap by hand, rinse thoroughly and dry at room temperature without squeezing. Do not use in washing or drying machines.

WARNING: In case of reddening and irritation, stop using and consult your doctor. Using during sleep is not recommended.
